The following approved classes may be used to satisfy the Class 2 (2G) approved emission inspector 12 hours of training requirement. In addition to attending 12 hours of training, Approved Class 2 (2G) Inspectors must also take and pass the Department's Class 2G renewal examination. The Automotive Service Excellence L-1 certification exam results can be used in lieu of the departments renewal examination to renew the Class 2G license if taken within 12 months of renewal date.

1. **AC Delco:** Instructor led classes except basic electrical. The course certificate of completion document must indicate how many hours the individual attended toward the minimum of 12 hours training.
